

# ECT-20

## EMERGENCY COMMUNICATIONS TRAILER

## Ultimate Mobile Command Center Communication Trailer

Elevate your field operations with our ECT-20. This mobile command center is designed to establish a fully operational voice, data, radio network, and a climate-controlled workspace within 15 minutes of deployment.

### Embrace Global Reach: Connect Anywhere, Anytime

- With a VSAT auto-acquire satellite system, our mobile command center ensures that you will have remote connectivity.
- The ECT-20 can be used with auto-acquire antennas in both Ku or Ka bands, OneWeb antennas for LEO satellites, RoIP (Radio over IP), PTT over satellite (Push To Talk), video surveillance, audio, cellular repeaters/extenders, and WiFi.

### A Workspace that Adapts to Your Need

- The interior of the ECT-20 is a multi-functional space designed to support various workstations, fitted with radiant LED lighting and modern equipment racks.
- ECT-20 goes beyond standard features, offering enhanced options such as cozy kitchenettes, comfortable bathrooms, and modular conference rooms.

### Dimensions

- Length: 22'
- Width: 9'
- Height: 11'6"
- Weight: Approximately 8,500 lbs

## Elevate Collaboration & Coordination

- Equip your command center with advanced communication tools. From wall-mounted monitors and audio-video conferencing systems to VoIP telephones and multiple power/data outlets.
- Radio dispatch consoles can be integrated seamlessly, complete with headsets, dual monitor setups, and foot controls. These features enable efficient and rapid responses, making ECT-20 the ultimate communication hub.

## Ensure Comfort for Long-Term Deployments

- With optional modern bathroom and kitchen areas fitted with tankless hot water heaters, microwave ovens, coffee pots, and full-sized or mini-refrigerators, it's a home away from home.
- Abundant cabinet storage ensures every item has its place, reducing clutter and maintaining a stress-free environment.

## Trust Expert Support: Leveraging Decades of Experience

- We pair our cutting-edge ECT-20 mobile command center with the expertise of our certified technicians. With over two decades of experience in LMR integration and interoperability, they ensure you get the most from your investment.
- Reach out to us for a detailed demonstration or a tailored budgetary quote.
